

## UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

This summer, invest in the skills that will help children achieve their full potential throughout the school year. Nonprofit Invent Now Kids' premier program, Camp Invention, is a weeklong adventure in creativity. Your children will experience inquiry-based learning through FUN activities that will help them **unleash their creative genius**.

The Camp Invention program consists of **five exciting modules** that are designed to provide a unique opportunity to explore the unknown, tinker with ideas, and satisfy an innate sense of curiosity. Children must tap into their creativity to solve real-world challenges and work as a team, using problem solving as a portal to discovery.

Renowned for the difference it's making nationwide, this enrichment program provides a safe, creative outlet for children to extend school year learning through FUN, hands-on activities that develop **important life skills that prepare them for the 21st century**.

*"As a parent it was priceless when my child came home and announced, 'Learning is AWESOME!'"*

- Camp Invention Parent

*"Camp Invention made me know that if I never give up, I can do anything."*

- Camp Invention Participant

*"This exciting camp is everything good science instruction should be. I am proud to be a part of Camp Invention."*

- Camp Invention Educator

**INSPIRE A PASSION FOR LEARNING IN YOUR CHILD!**

Each day, children entering grades one through six will participate in these five modules that are led by qualified local educators and full of hands-on activities.

**This year's brand new INNOVATE program features:**

**Power'd™**

It's alive! In a secret lab, build your own motorized creature and learn about alternative sources of energy while helping a mysterious scientist harness the power of nature.

**Hatched™**

The Hatched online virtual world is disappearing! Help rebuild the Hatched world and become an entrepreneur in the avatar marketplace.

**SMARt: Science, Math & Art™**

What do soap bubbles, honeycombs, and lightning bolts all have in common? Discover the fun side of math with tessellations and fractals in the Pattern Kingdom.

**I Can Invent III™**

Take apart a broken machine and see what's inside. Younger children will create fantasy inventions, while older groups will work on a team Rube Goldberg challenge that creates a "mini-explosion".

**Global Games™**

Explore cultures from around the world by discovering the link between ancient games and those we play today. Then add your own twist and get ready to play!

**LOCATION:**

ETHOS Inc.  
June 21 - 25 from 9:00am - 3:30pm

**DIRECTOR:**
